

Applications

- WALLY type filters are best for providing fresh air to pressurized indoors from dusty environment

Benefits

- Reduce electrical consumption thanks to integrated EC Fans.
- Plug&Play device
- Automatic Jet-Pulse cleaning system provides non-stop operation
- Integrated air compressor provide highest flexibility for locating the device
- Energy efficient EC Fan which helps you run at different speeds

Technical Datasheet

Filter	
Filter Stages	1
Filt. Technology	Cleanable Cartridge Filters
Filter Media	
Standard	nanoBLEND FR
Filtration Area	
Standard	30 m ²
Filtration Efficiency	
Standard	F9 (MERV 16) Class

Basic Information

Extraction Capacity	max. 2.000 m ³ /h
Dimensions	818 x 777 x 2.117 mm
Weight	350 kg
Motor	3 x 190 W
Power Supply	
Standard	230 V - 50 Hz
Optional	380 V - 50 Hz
Air Compressor	
Storage	170 L
Motor Power	1 HP
Max. Air Pressure	6 bar

Additional Information

Certification	CE Certified
Fan Type	EC Fan
Cleaning Type	Jet-Pulse
Control Type	Standard
HS Code	8421.39.85.90.00

Dimension
